

DSC Sport – Nissan GT-R (R35) Installation Guide

- I. Remove key from ignition.
- II. Locate the cover plate behind and under the glove box.

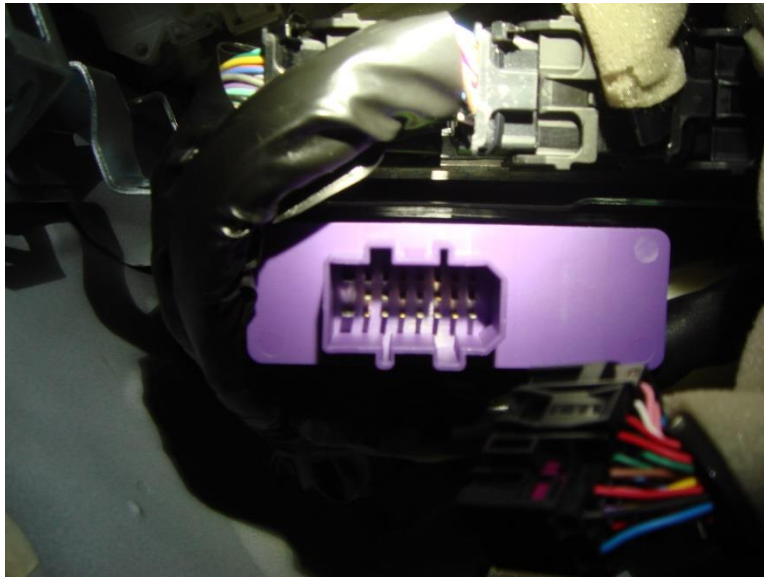

- III. Remove cover plate

- IV. Locate OEM suspension controller

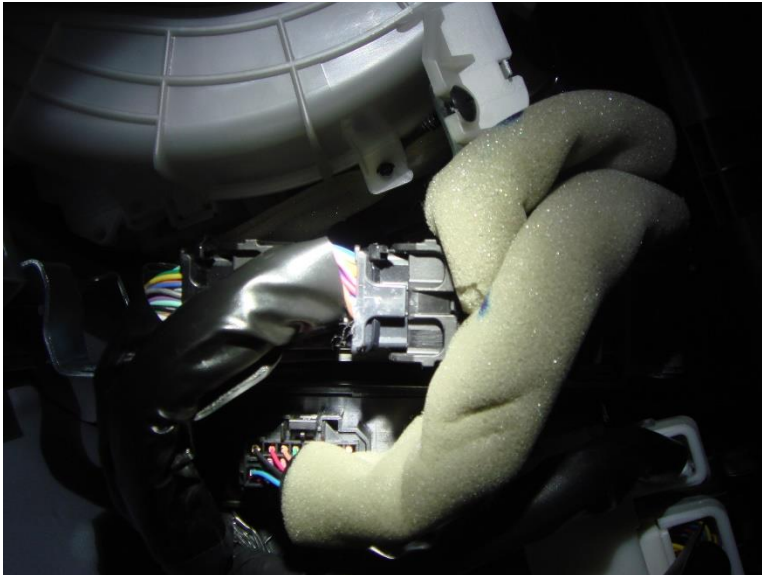

- V.** Carefully remove the connector and board from the controller's cabinet (move side to side as you pull the board out). Once the board is removed from the cabinet, disconnect the wiring loom.

- VI.** Insert the DSC Sport board into the OEM cabinet; ensure that the board is aligned with the guide rails for proper fitment.

- VII.** Connect wire loom to DSC Sport controller's connector.

- I.** Close up the cover plate removed in steps 1 & 2.
